Subject: Re: Police Vests

In a message dated 1/18/2006 3:35:58 P.M. Eastern Standard Time, dstone@FlagshipVentures.com writes:

Don, et al,

At last night's FinCom meeting, we discussed the possibility that the \$25,000 balance in the FinCom Reserve Fund could be used to enable the immediate purchase of new bullet proof vests for the police department, rather than waiting for next year's budget. Of course, you would have to find the balance of the \$30,000 price somewhere else in the FY06 budget. As we understand the procedure for expenditures from the reserve fund, you need to bring us a proposal, which we would then approve. The committee voted unanimously to ask me to ask you to submit such a request.

Regards,

David

David:

The Manager and I have already discussed this possibility and I expect you will be receiving such a request after the BoS has had a chance to discuss it next Monday night.

Peter
